

Turboson SP-500

Piezomatic Ultrasonic Scaler

*Constant and wide range power of piezoelectric for precision operating
Ingenuity, High Performance,
Reliable Quality, Inexpensive.*

MONITEX

Turboson SP-500 **Piezomatic Ultrasonic Scaler**

- High Efficiency for Perio Debridement - It drives easily to maximum smooth frequency to remove the stubborn old calculus from coronal, as well as the sulcular and pocket epithelium in root epithelial or debris scaling.
- Micro-Control of Power Knobs - For adjusting stable steam and vibration during treatment for patient more comfortable feeling.
- Easy Handling Handpiece - Fingerbreadth, holding groove, quick detachment and temperature-resistant.
- Attractive new design is pleasing to the eye.
- Hygienic - Streamline modeling is easy to clean.
- User Friendly - simple, stable and quiet operating.
- Compact design of unit and handpiece can fit to a very small space in your unit tray, shelf, cabinet drawer or trolley for handy operating.

Specification:

Unit size	18(L)x14.5(W)x6.5(D)cm
Weight	660 g
Power Supply	DC 24V
Water Pressure	0.1 ~ 0.5 Mpa
Working Frequency	28 ± 3 KHz
